

tempo is
always in
bpm

key to number of beats: the
instrument may involve a
separate beat transformation
for each child performance:
"take this performance of length
= X beats and play it over Y
beats"

event geometry duration = 0
means the corresponding sound
gets played to the end. can be
visualized by using a circle
instead of a bar (rect) or a
triangle that points (fades out)
to the right like a play button
